INTRODUCTION

This report provides a cross-classification of ethnic groups by birthplace. It supplements previous 1971 Census reports which provided basic distributions of place of birth, 92-727 (Bulletin 1.3-6), and a cross-classification of birthplace by age groups and sex, 92-737 (Bulletin 1.4-9). Similar data for ethnic groups were contained in 92-723 (Bulletin 1.3-2) and 92-731 (Bulletin 1.4-3).

Census respondents were asked to report the province or country in which they were born. This bulletin, therefore, classifies the native-born population by province of birth, and the foreign-born by country of birth as it was constituted on June 1, 1971.

In the census, a person's ethnic or cultural group is traced through the father's lineage. In 1971, respondents were asked the question "To what ethnic or cultural group did you or your ancestor (on the male side) belong on coming to this continent? ". If applicable, the language spoken at that time by the person or by his or her paternal ancestor was used as a guide in determining the person's ethnic group.

Definitions of geographic terms (e.g., urban, rural, farm population) can be supplied on request. They also appear in most reports of earlier issues of the Volume I series.

The information in this report was collected on a 33 1/3% sample basis. As a result, the population for a given geographic area may differ from that shown in reports containing data collected on a 100 p.c. basis. The latter figures, of course, represent the official population counts (see Catalogue Nos. 92-704 to 92-707).

Ce bulletin contient un classement de la population selon le groupe ethnique par lieu de naissance. Il complète les publications antérieures du recensement de 1971 où figurent des répartitions de base de la population selon le lieu de naissance 92-727 (bulletin 1.3-6) et un classement selon le lieu de naissance par groupe d'âge et par sexe 92-737 (bulletin 1.4-9). Les publications 92-723 (bulletin 1.3-2) et 92-731 (bulletin 1.4-3) contiennent des données semblables pour les groupes ethniques.

Les recensés devaient indiquer la province ou le pays de leur naissance. Ainsi, dans le présent bulletin, les personnes nées au Canada sont classées par province de naissance, et les personnes nées à l'extérieur du Canada par pays de naissance (selon sa constitution territoriale au 1^{er} juin 1971).

Aux fins du recensement, le groupe ethnique ou culturel est déterminé par celui du père. En 1971, les recensés devaient répondre à la question "À quel groupe ethnique ou culturel appartenait votre ancêtre paternel (ou vous-même) à son arrivée sur le continent? ". Au besoin, la langue parlée par le recensé ou par son ancêtre paternel à son arrivée en Amérique a servi de guide pour déterminer le groupe ethnique ou culturel.

Les définitions des termes géographiques (par ex., régions urbaines, régions rurales, population agricole) peuvent être obtenues sur demande. Elles figurent également dans la plupart des bulletins déjà publiés du volume I.

Les renseignements de la présente publication ont été recueillis par un échantillonnage de 33 1/3 %. Il s'ensuit que les chiffres de population pour une région géographique donnée ne sont pas forcément les mêmes que ceux des publications dont les données avaient été recueillies à 100 p. 100. Bien entendu, c'est ce dernier chiffre qui représente le dénombrement officiel de la population (voir les publications nos 92-704 à 92-707 au catalogue).

The 1971 Census figures in this report have been subjected to a confidentiality procedure to prevent the possibility of associating small figures with any identifiable individual. The particular technique used is known as "random rounding". Under this method, all last or "unit" digits in a table (including all totals) are randomly rounded (either up or down) to "0" or "5". This technique provides the strongest possible protection against direct, residual, or negative disclosures without adding any significant error to the census data. However, since totals are independently rounded they do not necessarily equal the sum of individual rounded figures in distributions. Similarly percentages, which are calculated on rounded figures, do not necessarily add to the total. Also, minor differences can be expected for corresponding totals and cell values in various census reports.

The estimates of the mean square error for the characteristics covered in this report were not available at the time of publication. They will be available in the introductory report to this volume (Catalogue No. 92-729). Those users requiring this information prior to the release of the introductory report should contact the Census User Inquiry Service.

Par souci de confidentialité, les chiffres de 1971 publiés ici ont été soumis à une formule qui garantit l'impossibilité d'associer des chiffres de faible importance à une personne reconnaissable. Cette technique particulière s'appelle l'"arrondissement aléatoire". Grâce à cette méthode, tous les derniers chiffres, c'est-à-dire les chiffres des unités, des tableaux (y compris tous les totaux) sont arrondis de façon aléatoire (vers le haut ou vers le bas) à "0" ou à "5". Cette technique assure la protection maximale contre la divulgation directe, négative ou par recoupements, sans ajouter d'erreur significative aux données. Toutefois, puisque les totaux sont arrondis séparément, ils ne sont pas nécessairement égaux à la somme des chiffres individuels arrondis dans les distributions. De même, la somme des pourcentages calculés à partir de chiffres arrondis ne correspond pas forcément au total. Aussi, il faut s'attendre que les totaux et les autres chiffres correspondants dans divers bulletins du recensement présentent quelques légères différences.

Les estimations de l'erreur quadratique moyenne des caractéristiques données dans ce bulletin n'étaient pas disponibles au moment de la publication. Elles seront disponibles dans le rapport introductoire de ce volume (n° 92-729 au catalogue). Les utilisateurs demandant ce renseignement avant la publication du rapport introductoire devraient s'adresser au Service-utilisateurs, Recensement.

Publications of the Census of Canada, 1971

This report is one of the Volume Series of publications of the 1971 Censuses of Population, Housing and Agriculture. Altogether, there are some 225 reports in this series prepared in such a way that by removal of their covers the contents can be combined to form the materials comprising the 6 volumes and 25 separate volume parts in the entire series. A hard-covered binder, suitably titled, is included in the composite price to purchasers of the complete set of reports for any given volume part.

Catalogue of reports

A catalogue is available which describes the individual reports in the Volume Series of 1971 Census publications as well as reports in other series (i.e., Advance Series, Census Tract Series, and Special Series). The catalogue also includes a price list and an order form. A copy of this catalogue may be obtained from Publications Distribution, Statistics Canada, Ottawa K1A 0T6. For further information on census publications, address your inquiry to Information Division, Statistics Canada.

How to order reports

Orders for reports may be sent to Publications Distribution, Statistics Canada, Ottawa K1A 0T6, or to Publishing Division, Information Canada, Ottawa K1A 0S9. Enclose payment with your order in the form of a cheque or money order made payable to the Receiver General of Canada. If more convenient, census publications may be ordered from Information Canada bookstores in Halifax, Montreal, Ottawa, Toronto, Winnipeg, or Vancouver. For other details concerning deposit accounts, bulk orders, etc., contact Publications Distribution, Statistics Canada.

Other forms of publication

In addition to the tabulated results of the 1971 Census published in reports and bulletins, a large number of tables will be issued to users as copies of computer print-outs. These will also be available in microform. A variety of statistical tables may be purchased on computer "summary" tapes for further computer analysis by users. Details of the content, prices, and availability of census tabulations in these output media may be obtained from the User Inquiry Service, Census Division, Statistics Canada, Ottawa K1A 0T7.

Special tabulations

To the extent that confidentiality constraints permit, Statistics Canada will produce for users at cost, special tabulations not already included in the planned tabulation programme. A standard User's Request Form on which to outline precise tabulation requirements and to request time and cost estimates may be obtained from the User Inquiry Service of the Census Division of Statistics Canada.

Maps and geographic files

Large-scale maps may be purchased to show the boundaries of enumeration areas (i.e., the territory covered by each Census Representative in taking the census), as well as small-scale maps of census divisions and other statistical areas. Supporting documentation relating to the census geographic files (i.e., place names, codes, etc.) are available in tabular form identifying the component enumeration areas of administrative and statistical units (e.g., towns, villages, municipalities, tracts). Further details, including costs to users, may be obtained from the User Inquiry Service of the Census Division of Statistics Canada.

Publications du recensement du Canada de 1971

Le présent bulletin fait partie de la série des volumes des recensements de la population, du logement et de l'agriculture de 1971. Cette série compte au total environ 225 bulletins présentés de telle sorte qu'en retirant leur couverture l'utilisateur peut les réunir et constituer ainsi les 6 volumes de la série, qui comprennent 25 parties distinctes. Un auto-relieur à couverture rigide portant le titre approprié est compris dans le prix d'achat de la série complète des bulletins constituant une partie de volume.

Catalogue

On peut se procurer un catalogue qui décrit chaque bulletin de la série des volumes du recensement de 1971, ainsi que les bulletins des autres séries (série préliminaire, série des secteurs de recensement et série spéciale). Le catalogue contient également une liste de prix et une formule de commande. On peut obtenir un exemplaire de ce catalogue en s'adressant à la Distribution des publications, Statistique Canada, Ottawa K1A 0T6. Pour tout renseignement complémentaire sur les publications du recensement, s'adresser à la Division de l'information de Statistique Canada.

Commandes de bulletins

Les commandes de bulletins peuvent être envoyées à la Distribution des publications, Statistique Canada, Ottawa K1A 0T6, ou à la Division de l'édition, Information Canada, Ottawa K1A 0S9. Toute commande doit être accompagnée d'un chèque ou d'un mandat établi à l'ordre du Receveur général du Canada. On peut aussi commander les publications du recensement aux librairies d'Information Canada de Halifax, de Montréal, d'Ottawa, de Toronto, de Winnipeg et de Vancouver. Pour plus de détails sur les comptes de dépôt, les commandes en gros, etc., s'adresser à la Distribution des publications, Statistique Canada.

Autres formes de publication

En plus des diverses publications contenant les résultats du recensement de 1971, de nombreux tableaux seront mis à la disposition des utilisateurs sous forme d'états mécanographiés. Ces tableaux seront également disponibles en microcopie. Les utilisateurs désireux de faire des analyses par des moyens mécanographiques pourront également se procurer un large éventail de tableaux statistiques sur bandes "sommaries". Pour tout renseignement sur le contenu, le prix et la disponibilité des résultats du recensement sur ces supports, s'adresser au Service-utilisateurs, Division du recensement, Statistique Canada, Ottawa K1A 0T7.

Totalisations spéciales

Dans la mesure où le respect du secret des données le permettra, Statistique Canada établira, à l'intention des utilisateurs qui en acquitteront les frais, des totalisations spéciales qui ne font pas encore partie du programme d'exploitation prévu. On peut obtenir auprès du Service-utilisateurs de la Division du recensement de Statistique Canada une formule normalisée sur laquelle l'utilisateur précisera ses besoins et demandera une estimation du délai et du prix.

Cartes et fichiers géographiques

Les utilisateurs pourront se procurer des cartes à grande échelle indiquant les limites des secteurs de dénombrement (c.-à-d. des territoires recensés par chaque représentant du recensement) ainsi que des cartes à petite échelle des divisions de recensement et des autres secteurs statistiques. Les documents constituant les fichiers géographiques (noms, codes, etc. géographiques) sont disponibles sous forme de tableaux présentant les différents secteurs de dénombrement qui constituent les unités administratives et statistiques (par ex., villes, villages, municipalités et secteurs de recensement). Pour plus de détails et pour une indication des frais, s'adresser au Service-utilisateurs de la Division du recensement de Statistique Canada.
